

OUR VISITS IN MUSEUMS

Organised by the lycée Bergson, Paris, France.

While the partners were in Paris in March 2014, we visited 3 museums with the pupils of the Welcome class of our high school. We had three guided tours there:

1. The Quai Branly Museum, where objects of different continents are presented (Africa, America, Asia, Oceania): <http://www.quaibranly.fr/>
2. The immigration Museum, where we saw an exhibition about immigration in comics: <http://www.histoire-immigration.fr/>
3. The 104 Art Center, where there are many artistic workshops and contemporary art exhibitions <http://www.104.fr/>

In the high school, there is also a project with the Louvre museum. 3 pupils implicated in the project came to explain the aim of this project and also they were guides in the Louvre museum for the partners who wanted to see the museum (it was optional): <http://www.louvre.fr/>

Other partners preferred to visit the Orsay Museum with audio-guides: <http://www.musee-orsay.fr/>
